

Model 230

Where Performance Meets Value

Field-Proven Technology Manufactured by an Industry Leader

The 230 is a countertop, 30" high performance, friction feed, vinyl cutting system. It is loaded with performance features seldom found in more costly systems. Material loading and alignment is a breeze. Its intuitive and simple user interface is a user's dream. Process speed and cut force are simply dialed in...even on-the-fly! The 230 has the renowned **Gold Touch™ cutting head**. That means you have 550 grams of adjustable cut force at your fingertips. It means you can process the full gamut of graphic materials...vinyl, reflective, stencil, heat transfer, paper and more!

30" High Speed Performance that's Affordable
