

# Allen<sup>TM</sup> Series

## Easily Cut Templates Accurately and Quickly

The TM Series Template Makers from Allen Cutters are versatile, high-performance digital template cutting systems and are widely considered to be the leading brand of choice for countertop fabricators.

- **Our industry exclusive “long-tracking guide system,”** ensures accurate tracking of template media over the distances needed for most countertop jobs.
- **Easily adjustable pinch wheels** allow the use of a variety of material widths up to the max cut width of each model.
- **The modern touch screen control panel** with plain text menus and easy to use controls provides an intuitive user interface.
- **The TM cutting head has 100 steps of digitally controlled adjustable force** to allow cutting of materials from the thinnest to the thickest offerings.
- **“Tangential Emulation” cutter software** allows the TM cutter to cut fine points, accurate lines, and square corners in our AT-Template Media and to etch labels and markings on the media with ease.
- **Three Modes: Cut, Draw, and Pounce** give users flexibility to work with a variety of material, such as template media, sign vinyl, rolled paper, Tyvek, and more.
- **An all-metal chassis and well-engineered construction** provide long-lasting durability and confidence that the TM Cutter will be there when you need it.
- **AllenCAD Pro, our full-featured CAD software** is a complete 2D computer aided design program featuring the ultimate productivity tool for countertop fabricators - Allen DirectCUT Tiling. Producing tiled templates is as easy as clicking a button. This user-friendly operation saves time and minimizes waste.
- **AT-Template Media** is a 0.01-inch thick, translucent, lay flat, dimensionally stable PVC material available in three roll sizes: 30" x 150', 36" x 150', 60" x 150'
- **TM Series digital template cutting systems, AllenCAD Pro Software and AT-Template Media** – an industry proven combination that meets your countertop templating demands.
