

TECH 230

Field-Proven Technology Manufactured by an Industry Leader

The 230 is a counter-top, 30" high performance, friction feed, vinyl cutting system. It is loaded with performance features seldom found in more costly systems. Material loading and alignment is a breeze. Its intuitive touch screen interface is a user's dream. Process speed and cut force and simply dialed in...even on-the-fly! The 230 has the renowned Gold Touch™ cutting head. That means you have 550 grams of adjustable cut force at your fingertips. It means you can process the full gamut of graphic materials... vinyl, reflective, stencil, heat transfer, paper and more!

Built to work your way.

The 230 delivers compatible interface convenience. If you like to work with the popular sign design software programs like SignLab, Flexi, Omega, Vinyl MasterPro or just about any other... You're ready for production... the 230 is compatible.

The Affordable Precision Cutter For What You Want To Do!

Add more productivity to your business!

Launch a new business!

Enhance an enterprise!

DirectCUT Windows Driver Is Included!

DirectCUT has all the job-output management settings you expect from a real performance cutter... you can set your output for Multiple Copies, Step and Repeats, Job-to-job spacing, Mirror Image (Reverse), Rotate, Weed Border, Object Sorting and Loop Direction.
