

TECH PS 1400

On Demand Sheeting

Looking for an economical, automated solution to converting roll materials into sheets?

The PS 1400 is a complete, stand alone system including a custom stand and auto-feed system capable of converting materials up to 14 inches in width at speeds up to 30 Ft/min. Utilizing system components and technologies from our Digital Label System and Digital Finishing systems, roll based materials can easily be converted to single sheets. Offering 3 different user modes, sheets can be cut to a specified length, cut using a printed registration mark, or double cut removing a gutter between the finished sheets.

The PS 1400 is yet another example of ADSI's commitment to offer our customers comprehensive solutions for the production of labels, decals and signs.

Modes: Single cut to mark, double cut to mark and sheet
Blades: Circular rotational carbide
Mechanical Accuracy: 0.008 inch (0.2 mm)
Media Width: 4 - 14 inches (102 - 355 mm)
Power Requirements: 100 - 120, 200 - 240 VAC, 2A@120 VAC -1A@240 VAC
Linear Speed Sheet Mode: Up To 30 Ft/min
Operating Temperature: 0 to 40 degree C operating
Operating Humidity: 5% to 95% relative humidity non-condensing
Dimensions: L 33" x H 44" x W 30"
Min Length: .5 inches (13mm)
Max Length: 45 inches (1140mm)
Weight: 190 lbs.
Warranty: 1 year
