

The #1 Selling Monument Stencil Cutter -Now Smarter, Stronger, And Still 100% Built In The USA

FEATURES & BENEFITS

- Utilizes both a friction-feed drive with eight pinch wheels and a four-point sprocket drive working in tandem to ensure accurate tracking of media.
- Heavy-duty analog joystick allows precise movement.
- Easily access hardware with the chassis door slide tray.
- Compatible with the industry's leading software programs.
- Use Draw Mode on rolled paper to cut patterns for shaped stones. Switch to the friction mode to cut, draw, or pounce your other materials.
- Microsoft OS compatible (version7 or higher).
- All Allen Monument cutting systems come with a twoyear warranty.
- 100% designed and manufactured in the USA.
